 #19 Nur Fateh Lane, Lalbagh, Dhaka, Bangladesh

## Education

2018 - 2023	<b>Bangladesh University of Engineering and Technology (BUET)</b> Bachelor of Science in Computer Science and Engineering   CGPA: 3.63/4.00	Dhaka, Bangladesh
2017	<b>Chittagong College</b> Board of Intermediate and Secondary Education, Chittagong   GPA: 5.00/5.00	Chittagong, Bangladesh
2015	<b>Chittagong Government High School</b> Board of Intermediate and Secondary Education, Chittagong   GPA: 5.00/5.00	Chittagong, Bangladesh

## Technical Skills

<b>Languages:</b>	Java, Python, C, C++, HTML5, CSS, Bash
<b>Frameworks:</b>	React.js, Node.js, Django, Spring Boot
<b>Databases:</b>	Oracle PL/SQL, MySQL, MongoDB
<b>Miscellaneous:</b>	Git, Github, $\LaTeX$ , NS3, PacketTracer, Wireshark

## Experience

<b>Present</b> Jun 2023	<b>Computer Network Systems Limited (CNS)</b>  Assistant Software Engineer	Dhaka, Bangladesh
----------------------------	--	-------------------

## Projects

### Moodle LMS

Tools & technologies used: ReactJS, NodeJS, ExpressJS, MongoDB

- ▶ We developed a Moodle LMS (Learning Management System) for our software engineering project. We utilized the MERN stack (MongoDB, Express, React, Node) to develop a web-based LMS platform. This website was inspired by <https://moodle.cse.buet.ac.bd>. Check this project on [Github](#). The demonstration is available [here](#).

### Blood Donating Platform

Tools & technologies used: Django, Javascript, HTML, CSS

- ▶ We designed and developed a blood donation app as an undergraduate project. The website allows users to sign up as donors, specify their blood type, and provide their contact information. When a blood drive or a hospital requests blood, the app sends notifications to eligible donors in the area, allowing them to quickly and easily respond to the call for donation. Check this project on [Github](#).

### Retro Shooting Game

Tools & technologies used: C++, ATmega32

- ▶ We built a retro shooting game using C++ and the ATMEGA32 microcontroller. This game features 2D graphics, simple and fast-paced action, and a focus on high scores and player skill. The goal is usually to achieve the highest score possible, either by surviving for as long as possible or by collecting points for defeating enemies. Check this project on [Github](#). The Demonstration is available [here](#).

## Scholarships and Certificates

- ▶ University Merit Scholarship (1st & 2nd Semester)
- ▶ Board Scholarship in Higher Secondary School Certificate Examination.
- ▶ Board Scholarship in Secondary School Certificate Examination.
- ▶ Bangladesh Chemistry Olympiad Division (3rd | Chattogram)
